TUESDAY EVE., OCTOBER 12, 1886.

The Republican Nominee for Congress., There is nothing, absolutely nothing in Judge Thomas' past political life to commend him to the people of this district in the present race for Congress. The reverse is true. There is moth to condemn him in the eyes of honest men. As a politician he has been and still is one of the most tricky and unserupulous men in the district. The Republicans know this and they knew it when they nominated him. But this is neither here nor there. If they wish to run such a man for Congress they can do so.

In 1889, Thomas was elected Circuit Judge of this district, Six years later—In 1890—he was a candidate for re-election. There was nothing in his career as Judge to commend him to the people. But there was much to merit their disapproval. In isk at \$1.76 by his failure to attend to the discharge of his duties. The people didn't sanction such a record as and at the August election the defeated him and a such as a such Judged this district, Six years later—in 1880—he was a candidate for re-election. There was nothing in his career as Judge to commend him to thelpeople. But there was much to merit their disapproval. In six years he had cost the tax-payers of the State Sal,76 by his failure to attend to the discharge of his duties. The people didn't sanction such a record as that, and at the August election that year they defeated him and elected Hon. A. E. Cole, the present incumbent. Shortly after his defeat, he was appointed U. S. District Attorney for this State. His record in this office was no better than his career as Circuit Judge. He was either so incompetent or so derelict in his duties that the Louisville Commercial was led to comment on it.

Thomas now seeks to represent this district in Congress, but we opine that the people have had enough of him. His record shows conclusively that all he is after is the emoluments of the office. What cares he for the peoples' interests, so long as he can draw a good salary? Nothing at all. We believe many honest Republicans will join with the Democrate and help defeat him next month.

If there is anything in George Morgan from as' past political life to commend aim to the people, we should like very nuch to know what it is.

THE proprietor of Harper's Rolling Mill, at Newport, says the Maysville and Big Sandy Railroad will save him \$40,000 a year on drayage and bridge toll.

GENERAL DENVER is making a spirited canvass in the district across the river, and the Democrats are hopeful. He has a big majority, however, to overcome.

JUDGE THOMAS was an expensive Circuit Judge. In six years he cost the people, the tax-payers of this district over \$3.000. We believe many honest, straightforward Republicans are tired of such men as he is, and will vote against him on the 2nd of November.

A. A. Lawis, editor and proprietor of the Somerset, (Ky.) Republican, has renounced the g. o. p. forever. His paper has herestofore been a bitter partisan, but in its last issue he denounces the Republicans for their non-support, and says he is done with 'em. It is hardly necessary to add that his action caused a sensation.

to add that his action caused a sensation.

In the person of General J. W. Denver, Democrats of the district across the river have a nominee whom everyone can heartily support. Puzsley, the Republican candidate, is not his equal in any respect. The gerrymandering of the district by the last Legislature made it Republican by a big majority, but Pugsley is scared up, and Denver's prospects are growing brighter as the election approaches. There is no telling what can be done by effective work, and the Democrats should keep up their determined fight.
